

Neighborhood Golf Carts

Administrative Assistant / Service Coordinator

Job Description

Internal · Covington, LA

Updated 2026-08-03

Reports to: Christine White (Office Manager) · day-to-day coordination with Ryan White (Service Manager)
Classification: Full-time, hourly · planning rate ~\$15/hour (confirm before offer)
Location: 71363 Thelma Ln, Suite E, Covington, LA 70433
Hours: Monday–Friday, ~8:00 AM – 5:00 PM
Onboarding: New-hire packet, I-9, tax forms, and direct deposit via **Gusto**

Why this role exists

Ryan’s highest-value work is advanced diagnostics, technician training, QC, escalations, and shop leadership. Routine phones, standard estimates, approval follow-up, scheduling, and marketing admin are an **administrative bottleneck**. This hire removes that work from Ryan so estimates and carts move faster — without inventing a second technician.

Not this job: wrench work, independent pricing strategy, changing Facebook ads strategy, or replacing Christine as Office Manager.

Core responsibilities

1. **Phones & triage** — Answer and triage incoming calls; route technical questions to Ryan/techs only when needed.
2. **Standard estimates** — Generate estimates in Housecall Pro from technician findings and established pricing; escalate unusual scope/pricing to Ryan.
3. **Approval follow-up** — Review open estimates daily; contact customers; document decisions in HCP.
4. **Customer correspondence** — Routine status updates, scheduling confirmations, pickup/redelivery coordination with Roy.
5. **Workflow hygiene** — Keep waiting carts coded: **authorization / parts / technician / pickup-delivery / other**.
6. **Marketing admin** — Under Ryan/consultant direction, verify Facebook ad destination URLs and landing-page basics; do not change strategy without approval.
7. **Front-office support** — Deposits language, shop-only policy answers, handoffs to Christine/Ryan for edge cases.

Success looks like (initial KPIs)

KPI	CONTROL TARGET
Estimate turnaround	Standard estimates issued same business day when tech findings + pricing are complete
Approval follow-up	Open estimates reviewed and contacted daily
Correspondence	Routine calls/messages answered or acknowledged same business day
Ryan time released	Measurable weekly shift to diagnostics, training, QC, management
Workflow visibility	Every waiting cart has a documented wait code

Must-haves

- Clear phone / customer communication
- Organized follow-through (callbacks, open estimates, same-day acknowledgments)
- Comfort learning Housecall Pro (or similar CRM/FSM) and Google Workspace
- Coachable; knows when to escalate vs. handle
- Reliable Mon–Fri shop schedule; professional front-office presence

Nice-to-haves

- Prior front-desk, service coordinator, or small-business admin experience
- Experience with estimates, approvals, or scheduling in a service shop
- Basic familiarity with Facebook Ads Manager (URL/landing checks only)

Out of scope (escalate)

- Diagnostic advice beyond scheduling a shop diagnostic
- Non-standard pricing, discounts, or warranty exceptions
- Mobile/on-site service promises (NGC is **shop-only**)
- Changing ad creatives, budgets, or landing-page strategy
- Payroll / tax / banking (Jill / Gusto / owners)

Compensation & onboarding

- Hourly pay per offer (planning assumption ~\$15/hr — confirm at offer)
- **New-hire packet, I-9, tax forms, direct deposit, and payroll enrollment are completed in Gusto**
- Training: shadow Christine/Ryan; use NGC front-office SOPs and policy cheat sheet

How we hire

1. Indeed application (logistics / availability screened in app questions)
2. Phone interview scorecard (15–20 min)
3. Desk skills evaluation (call + estimate + wait-code scenarios)
4. Offer → **Gusto** onboarding → Day-1 checklist

Title: Administrative Assistant / Service Coordinator — Golf Cart Shop (Covington)

Neighborhood Golf Carts is a busy in-shop golf cart repair and lithium conversion shop in Covington. We're hiring a full-time Administrative Assistant / Service Coordinator to own phones, standard estimates, approval follow-ups, scheduling, and customer updates — so our service manager can stay on diagnostics, training, and quality.

You'll:

- Answer and triage phone calls (route technical issues appropriately)
- Build standard estimates from technician findings using our pricing
- Follow up on open estimates every day and document customer decisions
- Confirm schedules and coordinate pickup/delivery with our driver
- Keep jobs organized in Housecall Pro (what each cart is waiting on)
- Help with simple marketing admin checks (ad links / landing pages) under direction

You won't: repair carts, invent prices, or run the business strategy.

You're a fit if you're organized, clear on the phone, follow through without being reminded, and learn software quickly. Service-shop or front-desk experience helps but isn't required.

Details: Mon–Fri ~8–5 · Covington shop · hourly (about \$15/hr to start, depending on experience) · payroll & new-hire paperwork through Gusto.

To apply: Submit via Indeed. We'll call strong matches for a short phone screen, then a desk skills tryout.

Neighborhood Golf Carts · 71363 Thelma Ln, Suite E, Covington, LA 70433 · 985-402-1206

Suggested Indeed screening questions

1. Are you available Monday–Friday, approximately 8:00 AM – 5:00 PM, at our Covington shop?
2. How many years of phone / customer-service or front-desk experience do you have?
3. Have you used Housecall Pro, ServiceTitan, Jobber, or similar scheduling/CRM software? (Yes / No / Similar)
4. Are you comfortable calling customers daily to follow up on estimates and approvals?
5. What hourly rate are you targeting for this role?
6. Can you start within 2 weeks of an offer? (Yes / No — explain)

Internal notes (do not post)

- Board position: **recruit Admin immediately**; treat as justified if Ryan time log verifies bottleneck.
- Do **not** confuse admin backlog with Tech #3 hiring trigger (repair-ready work waiting on labor).
- Keep active Tech #3 recruiting pipeline separately.
- File scored phone/desk evals in Hiring folder; payroll setup in Gusto only.
