

MARKET ANALYSIS · FEASIBILITY STUDY

Southshore Second Location

Metairie · Jefferson · Kenner

- Free pickup & delivery up to 40 miles from Southshore shop
- Shop-only repair + Professional LiFePO4 conversions
- Home base: Covington, LA (Northshore)

Market GO · Timing WAIT · Site KENNER

Southshore is a real second market. Do not lease until Covington is predictable and demand is proven.

MARKET: GO

Jefferson ~427–431k people
> St. Tammany ~278k.
Kenner + Harahan street
ordinances unlock usage.

TIMING: WAIT

Covington ~\$555k rev,
~\$32k net. WIP / lithium
SLA risk. One driver.
Open too early = burn.

SITE: KENNER

Kenner first.
Elmwood–Harahan #2.
Metairie last — OEM
dealer saturation.

Bottom line

Free 40-mile Southshore P&D is the right offer for Location 2 — but the right sequence is demand proof + Covington stability first, brick-and-mortar second.

NGC today — do not break the model

Element	Current state
Service model	Shop-only — no mobile / trip charges
Hero product	Professional LiFePO4 kits \$2,599–\$3,299 · 5-yr batte
Diagnostic floor	\$179 minimum — not waived
P&D today	Free ≤40 mi Northshore · paid (~\$99) outside / South
T12 financials	~\$554.5k income · ~\$372k GP · ~\$31.8k net · ~\$81k li
Team	Ryan, Christine, Roy, Taylor, Marlon, Peyton (PT)
Strategy	Solidify service before cart sales / rentals

Why Southshore is hard from Covington

- Raise \$29.5k for P&D diagnostic initial visit free Northshore trailer for driving service

Trade area & demographics

Proposed free zone: ≤40 miles from Southshore shop.

Geography	Population	Med. HH income	Signal
Jefferson Parish	427k–431k	~\$65,250	Primary Location 2 parish
Metairie CDP	~145,000	~\$70,200	Largest / highest income
Kenner city	~65,000	~\$64,000	Street-legal ordinance
St. Tammany (home)	~278,000	Growing +~5%	Current base — smaller

40-mile free zone coverage

A Core Jefferson

Metairie, Kenner, Harahan,
River Ridge, Elmwood

B Orleans East Bank

Lakeview, Mid-City, Uptown,
Gentilly, NOLA East

C Gated / golf

English Turn &
East Bank clubs — high AOV

D West Bank fringe

Harvey, Marrero, Gretna,
St. Rose — lower density

Street-legal ordinances drive repair volume

LA RS 32:299.4 — carts on public roads only where city/parish designates streets.

Jurisdiction	Street-legal?	Implication for NGC
Kenner	YES — ≤35 mph (2024)	Strongest Southshore growth node — more wear & lithi
Harahan	YES — ≤25 mph	Dense pocket near Colonial Golf & CC
Metairie / unincorp. Jeff.	No broad ordinance	Private / HOA / course / commercial demand
English Turn (Orleans)	Gated / private	High-ticket residential lithium buyers

Priority outreach pockets

- Kenner (strongest growth node, but not OEM sales)

Two OEM dealers own the Metairie corridor

Golf Cars of Louisiana

8057 Airline Dr, Metairie

Club Car authorized distributor
Sales + certified service + P&D
Multi-location LA scale

STRENGTH: Brand authority & parts pipeline

Deep South Golf Cars

2508 Hickory Ave, Metairie

EZGO / Cushman authorized
Sales + service + custom
Claims 24–48 hr parts jobs

STRENGTH: Local brand & parts depth

NGC wedge — do not open as a mini-dealership

Southshore’s lithium & diagnostics shop: all makes · Professional Kits · free local P&D · 2–3 day lithium SLA · \$179 diagnostic toward repair. Differentiated from Club Car / EZGO sales floors.

Kenner first · Elmwood–Harahan second · Metairie last

Criterion	Metairie	Jeff (Elmwood/Harahan)	Kenner
Ordinance / usage tailwind	2	4	5
Population / income	5	3	3
Competitor saturation	1	3	4
Industrial rent / zoning fit	3	5	4
40-mi zone coverage quality	4	4	5
Weighted lean	Avoid first	Strong #2	BEST #1

Target real estate — Kenner primary search

- Avoid 2-500 sq ft (100-150 sq ft) for 2-300 sq ft (100-150 sq ft) before 0.4M parking

Free ≤40 miles Southshore P&D

Policy change vs today’s paid Southshore — log before marketing.

Zone	Fee
≤40 mi of Southshore shop	FREE (market like Northshore)
Outside 40 mi from either shop	Flat fee (keep / revisit \$99)
Cross-lake into Covington bay	Route to Southshore shop — do not advertise free Cau

Capacity math — do not underwrite with hope

45–90 min

Core Jefferson
round-trip P&D

2–3 hrs

Zone-edge
round-trip

4–6 / day

Batched stops
sustainable

2–3 / day

Random routing
ceiling

Implication: dedicated Southshore driver OR hard zone days (e.g. M/W/F). Free 40-mi without capacity destroys SLA.

Order-of-magnitude planning ranges — refine with Jill before lease

A. Cash to open (lean satellite)

Category	Mid / range
Deposit / buildout	\$15–45k
Tools / diag / chargers	\$20–50k
Opening inventory	\$25–60k
Truck / trailer (opt.)	\$0–45k
Launch marketing	\$5–20k
3 mo working capital	\$40–80k
TOTAL (realistic mid)	~\$150–200k

B. Revenue needed (≈67% GP)

Scenario	Monthly	Annual
Lean breakeven	\$35–45k	\$420–540k
Healthy satellite	\$50–65k	\$600–780k
Covington-comparable	~\$46k	~\$555k

Lithium mix: ~15 Professional Kits/mo ≈ \$42k before add-ons — can carry a lean shop if repair fills the rest (needs stock + SLA).

Monthly opex lean: ~\$18.5–36.5k before COGS (rent, 1–2 techs, desk share, driver, mktg).

Feasibility gates

Market size: PASS

Differentiation: PASS

Unit economics: PASS*

Ops readiness: FAIL

Leadership span: AT RISK

* on paper · Capital = owner decision · Overall: Market GO · Timing WAIT · Site KENNER

Three phases — do not skip A

What can kill Location 2 — and how to prevent it

Risk	Sev.	Mitigation
OEM dealers own Metairie mindshare	High	Don't open on their block; win lithium + speed + fre
Free 40-mi P&D cost blowout	High	Hard polygon; batch routes; booking capacity caps
Covington quality collapse	Crit.	Phase gates; Ryan stays Northshore primary Year 1
Technician hiring lag	High	Recruit before lease; use existing hiring quiz
Flood / insurance (Jefferson)	Med	Elevation, contents coverage, staging plan
Sales tax complexity	Med	Jill configures Jefferson nexus correctly
Web still shows legacy mobile	Med	Align copy to shop-only before Southshore ads
Over-marketing before capacity	Med	Cap SS bookings to Roy's batched days

What Ryan should do next

Max upside (24 mo)

Phase A hard, then Kenner lease — don't skip proof

Lowest risk

One shop; Southshore as paid premium lane until Covington is a machine

Best competitive angle

Lithium + free SS P&D + Kenner ordinance communities — not cart sales

Worst move

Sign Metairie retail near Airline while Covington WIP is aged & Roy is solo

Suggested decision (log when ready)

Explore Southshore via Kenner-first site search; no lease until Phase A demand proof and Covington throughput gates pass. Future Location 2 markets free P&D ≤40 miles Southshore.
