

Lab W04 — Motor Inspection & Test Report

Student: __ **Date:** __

Cart ID: _ **Motor type:** ☐ Series ☐ SepEx ☐ PM/BLDC ☐ Other:

OEM / model notes: _____

Safety

- [] Pack LOTO / zero energy verified before opening brush gear
- [] Wheels chocked / cart supported as required

Visual & mechanical

Check	Spec / Standard	Measured / Observed	Pass/Fail
Brush length			
Commutator condition			
Brush spring tension (qualitative)			
Bearing play/noise			
Cooling fan / debris			
Cable/terminal condition			
Mounting bolts / torque if reinstalled			

[PHOTO PLACEHOLDER: brush length measurement]

Electrical tests (motor isolated as required)

Test	Spec	Reading	Pass/Fail
Armature resistance			
Field resistance (if applicable)			
Insulation to ground			
Other:			

Dynamic / functional (instructor supervised)

No-load current (if measured): _ A

Direction correct?: ☐ Yes ☐ No

Notes: _____

Recommendation

☐ OK for service ☐ Rebuild ☐ Replace ☐ Needs further diagnosis

Rationale:

Technician signature: __ **Instructor:** __
