

## Lab W05 — Fault Code, Throttle & Solenoid Test Sheet

---

**Student:** \_\_ **Date:** \_\_  
**Cart ID:** \_ **Controller make/model:** \_\_\_\_\_

### A. Fault codes

LED behavior description: \_\_\_\_\_

**Flash code recorded:** \_\_

**Meaning (cite source):** \_\_\_\_\_

Related conditions confirmed by test?: ☐ Yes ☐ No ☐ Partial

### B. Throttle

Type: ☐ Potentiometer ☐ Inductive/Hall ☐ Other: \_

| Pedal position | Signal (V or $\Omega$ ) | Notes |
|----------------|-------------------------|-------|
| 0% (released)  |                         |       |
| ~50%           |                         |       |
| 100% (full)    |                         |       |

Smooth sweep without dropouts?: ☐ Yes ☐ No

### C. Solenoid / main contactor

Coil resistance: \_  $\Omega$  Spec/expected: \_

Coil voltage when commanded: \_ V

Contact voltage drop under load: \_ mV / V

Click heard?: ☐ Yes ☐ No

### D. HPD verification

Procedure used (OEM): \_\_\_\_\_

Result: ☐ Pass ☐ Fail — explain: \_\_\_\_\_

### Diagnosis summary

Instructor initials: \_
