

NEIGHBORHOOD GOLF CARTS

SHOP EVAL

Hands-on hire test

3–4 hours · Ryan

Golf Cart Technician — Hands-On Evaluation Scorecard

Next step after a phone-screen **ADVANCE**. Same idea as the phone call — can they learn the job safely? — but they show you with tools. **Golf cart experience is a plus, not required.** Pairs with the written / hands-on / diagnostics hiring quiz (120 + 120 + 60).

Candidate: _____

Date: _____

Evaluator: _____

Phone screen date: _____

Phone avg (A–G): _____

Phone Safety (E): _____

Scoring: 1 = Unsatisfactory · 2 = Developing · 3 = Solid / hireable with training · 4 = Strong | **Hire if:** Safety ≥ 3, no critical unsafe stop, and overall average ≥ 3.

1. SETUP · 10 min · no score

Say: “Today is a hands-on tryout — not a trick test. We’ll do a short written part, then tool work, then a real troubleshooting problem. You don’t need golf cart experience. If you’re unsure, say so — guessing with power on is worse than asking. Safety first; I will stop the eval if something is unsafe.”

■ Safety glasses / closed shoes ■ Bay assigned · cart ready ■ Meter, hand tools, quiz ready ■ Planted fault set (if using) ■ Phone scorecard on hand

2. LIVE SAFETY GATE · 15 min · Score S · must be ≥ 3 before continuing

Why (you): Phone asked if they’re careful. Now watch them. Same bar as phone Safety — batteries can spark and burn.

Do / Ask:

1. Point at a cart with batteries. “Show me how you get ready to work around these batteries.” (Watch — don’t coach unless unsafe.)
2. “Check the pack voltage with this meter and tell me what you see.”
3. If they reach for metal jewelry still on: stop and note it.

Pass looks like: key/power off mindset · jewelry off · meter leads used carefully · doesn’t lay tools across battery posts · asks before guessing.

Fail / stop eval: careless around posts · won’t remove rings · bypasses a safety switch · ignores a direct safety stop.

S. Live safety around batteries (GATE)

“3” looks like: Careful, jewelry off, meter used safely, thinks before touching.

■ **UNSAFE STOP** — end eval, do not continue to tools

Score

1 ■ 2 ■ 3 ■ 4 ■

3. WRITTEN KNOWLEDGE · ~45–60 min · 120 pts in hiring quiz · Score W

Do: Give the written hiring quiz (Drive: *Hiring quiz evaluation – Technician*). They work alone. You may clarify a confusing question — don’t give answers.

Quiz points
_____ / 120

~Percent
_____ %

1–4 convert: 90%+=4 · 75–89%=3 · 60–74%=2 · under 60%=1

W. Written knowledge (High · maps to 120 pts)

“3” looks like: About 75%+ on quiz, or clear basics even if cart brands are new.

Weak areas: _____

Score

1 ■ 2 ■ 3 ■ 4 ■

4. HANDS-ON SKILLS · ~90–120 min · 120 pts in hiring quiz · Scores H1–H4

Run four short stations. Coach only for safety. Golf-cart brand knowledge is a bonus — score how they use tools and follow steps.

H1. Multimeter basics

Ask / Do: “Using this meter, show me battery pack voltage, then check if this wire/path has continuity (beep / path is good).”

H1. Multimeter basics (Hands-on)

“3” looks like: Picks right setting, probes safely, reads a number that makes sense, doesn’t short posts.

Score

1 ■ 2 ■ 3 ■ 4 ■

H2. Battery & connections check

Ask / Do: “Look over this battery setup. Tell me what looks good, what looks wrong, and what you’d tighten or clean.”

H2. Battery & connections check (Hands-on)

“3” looks like: Finds loose/dirty/corroded connections; notices obvious damage; explains in plain words.

Score

1 ■ 2 ■ 3 ■ 4 ■

H3. Simple remove / reinstall

Ask / Do: “Take this part off and put it back the way you found it.” (Seat, panel, wheel, solenoid cover, or similar — pick one ready bay task.)

H3. Simple remove / reinstall (Hands-on)

“3” looks like: Organized, hardware tracked, cart left as found, no stripped fasteners, asks if stuck.

Score

1 ■ 2 ■ 3 ■ 4 ■

H4. Mechanical look-over

Ask / Do: "Do a quick safety look: tires, brakes/pedal feel, steering play, anything that looks unsafe to drive."

H4. Mechanical look-over (Hands-on)

"3" looks like: Checks the obvious items; flags anything scary; doesn't skip the walk-around.

Score

1 ■ 2 ■ 3 ■ 4 ■

Optional quiz points (hands-on section): _____ / 120 H1–H4 average: _____

Hands-on notes

5. TROUBLESHOOTING · ~45–60 min · 60 pts in hiring quiz · Scores D1–D3

Setup (you): Use a real complaint or a planted simple fault (loose battery cable, open fuse, key/run switch, etc.). Tell them the customer's words only — not the answer.

Say: "Customer says: _____ Find the problem. Talk out loud about what you're checking and why. Write down what you measured."

D1. How they start — Watch first 5–10 minutes.

D1. How they start (Diagnostics)

"3" looks like: Confirms the complaint, looks/safes the cart, checks power before swapping parts.

Score

1 ■ 2 ■ 3 ■ 4 ■

D2. Testing path — Do they measure, or guess?

D2. Testing path (Diagnostics)

"3" looks like: Uses meter/tests in a sensible order; narrows the problem; doesn't shotgun parts.

Score

1 ■ 2 ■ 3 ■ 4 ■

D3. Explain & write up — "Tell me what you found and what you'd tell the office to quote."

D3. Explain & write up (Diagnostics)

"3" looks like: Plain-language root cause + next step; notes a customer could understand.

Score

1 ■ 2 ■ 3 ■ 4 ■

Optional quiz points (diagnostics section): _____ / 60 Found the fault? ■ Yes ■ Partial ■ No Cues given: _____

Troubleshooting notes

6. SHOP FIT (all day) · Scores F1–F2

Score from how they acted the whole visit — not a separate interview.

F1. Pace & cleanliness (Medium)

"3" looks like: Steady work, cleans as they go, puts tools back, doesn't freeze or rush unsafely.

Score

1 ■ 2 ■ 3 ■ 4 ■

F2. Coachability (High)

"3" looks like: Takes feedback without getting defensive; asks good questions; improves after one cue.

Score

1 ■ 2 ■ 3 ■ 4 ■

Optional ask at end: "Any questions about the job, the shop, or working with our team?"

7. TOTALS & HIRE DECISION

S Safety	W Written	H1 Meter	H2 Batt	H3 R&R	H4 Mech	D1 Start	D2 Path	D3 Write	F1 Pace	F2 Coach
_____	_____	_____	_____	_____	_____	_____	_____	_____	_____	_____

Overall average (all scored items): _____ / 4 **Hands-on avg** (H1–H4): _____ **Diagnostics avg** (D1–D3): _____ Safety ≥ 3? ■ Yes ■ No

Quiz point total (optional): Written ____/120 + Hands-on ____/120 + Diagnostics ____/60 = _____ / 300

■ HIRE / OFFER

Safety ≥ 3, overall ≥ 3, trainable. Schedule start + onboarding with Taylor/Marlon.

■ SECOND LOOK

Mixed scores; strong in one area, weak in another. Optional short paid trial day before offer.

■ PASS

Unsafe, overall under 3, or can't follow a basic test path. Thank them; keep phone notes on file.

Final notes / offer terms to discuss with Christine

Compare to phone screen: Did Safety, problem-solving, and coachability hold up in person? If phone was strong and shop is weak (or the reverse), trust what you saw with tools.
